POSSOM HOLLER (LEVEL GREEN.)

MR. EDITOR: No news to write from this place. Farmers are busy when the weather will permit them to work. Wheat is showing up better by far than was expected some time since. The prospects for a peach crop were never better here at this season or time of year, but alas, one cold night can settle the hash with the whole of them.

Judging from the amount of fertilizer that is being brought to this part for corn the outlay in money this spring will exceed the income in the fall in corn. To put commercial fertilizer on very poor land is a needless waste of money and time. If we expect good returns, and pay for the outlay we must fertilize land with some soil, and my experience is, the more soil the better it will pay us.

We must diversify crops more in Rockcastle if we expect to live easily—let us learn that corn is not king, but good in his place. Try a large patch of potatoes, and a patch of tobacco, fertilizer will pay well on either, and they are money crops.

A few sheep and cows well kept will yield a larger return than horses.

Samuel Brown, who has been attending the law school in Louisville, will be at home in about ten days.

Miss Visa DeBord has been employed as clerk in her uncle's store, (M. B. DeBord.)

Custer Herrin, of Flat Lick neighborhood, makes lunar visits to uncle Mart DeBord's, and has so done for 12 moons. Strange, isn't it. Something must attract Custer and I'm sure it's not the old folks.

The Maccabees at this place have received their charter, and are going on their way rejoicing. Peter Shutts, A. J. Cress and others attended the State meeting at Louisville, this week.

Dr. Price has rented the C. D. Burnett farm, which will be sold in the near future.

Mr. Editor you will please notify Henry Brannaman, one time more, to bring in those chickens or I will certainly tell that he voted for Beckham at the November election.

Give us another write up on the candidates Ed, and don't leave me and Rash out next time.

I find that my calling and election is sure, if I kin only git a sustenance. Both my opponents will surely be beaten badly; for one of them will beat tother and then I'll beat the other. Am sorry the republicans have put off the primary so long, for I do want to get out among the "deer pepil," to speech makin'—me and my opponent—so bad that it worries me. Ed, can't you hurry Judge Colyer up just a little for my sake. My health is greatly improved and I've worked on the farm a few hours.

BUCK VARNON.

Then I began using Dr. King's New Discovery and was wholly cured by six bottles." Positively guaranteed for Coughs, colds and all Throat and Lung troubles by all Druggists. Price 50c and \$1.00.

So Mr. Editor, go on, you have a bright future before you, you have got the good will of the good people, and you have got the brain and heart to make your mark in the world. So

Mr. Editor stir up that Livingston man, and tell him we are looking for a good letter from that part every week.
